RITHIK JHA

Control-M Administrator | Workload Automation & Enterprise Output Management

Noida, India | Rithik2907@gmail.com | +91 8712899739
LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Control-M Administrator with 3+ years of experience supporting enterprise workload automation and output management across retail and Fortune 500 production environments. Experienced in Control-M Server, Enterprise Manager and Agent administration, high-availability implementation, failover and disaster recovery testing, platform upgrade activities, and incident root cause analysis across AIX, RHEL, Windows and z/OS.

PROFESSIONAL EXPERIENCE

Control-M Administrator (Specialist) | HCLTech

Jan 2026 – Present | Noida, India

- Administer Control-M Server, Enterprise Manager and distributed agents across AIX, RHEL, Windows and z/OS, supporting mission-critical batch operations for a major retail client.
- Collaborate on the Control-M 9.0.20-to-9.0.22 infrastructure upgrade, currently in the test implementation phase; troubleshoot upgrade-related issues and coordinate with BMC Support where applicable.
- Investigate and resolve recurring production incidents, including jobs stuck in “Waiting Host” status and premature re-triggering caused by persistent condition handling, using structured root cause analysis.
- Conduct monthly Auto Job Flow (AJF) cleanup, identifying and resolving approximately 300 stale or orphaned jobs per cycle to improve scheduling accuracy.
- Authored an SOP for Control-M Agent auto-startup configuration across AIX and Linux using systemd and SysV-init, and contributed to Control-M Agent upgrade activities.
- Perform HA implementation, failover/fallback testing and disaster recovery validation; administer Control-D WebAccess and CA WebView, and prepare diagnostic packages for vendor investigations.

Associate Data Center Operations Analyst | Ensono

Feb 2023 – Dec 2025 | Pune, India

- Executed successful IPLs across all LPARs for a key client during a high-risk daylight-saving time-change cutover, with zero incidents and no disruption to mainframe availability.
- Provided 24×7 production support for Fortune 500 z/OS environments, with 2,735+ tickets closed in a six-month span.
- Performed batch job scheduling, monitoring and troubleshooting using Control-M, TWS, JobTrac, IBM OPC, Zeke, Zebb and Zena; executed JCL fixes and restarts to recover failed jobs within SLA.
- Managed incident, problem and change activities via ServiceNow, including RCA documentation; monitored system health using SDSF, NetView, OMEGAMON and MainView.

TECHNICAL SKILLS

Scheduling / HA-DR	Control-M Server, Enterprise Manager, Agents, TWS, JobTrac, IBM OPC, HA/DR, failover and fallback testing
Output Management	Control-D, Control-D WebAccess, CA View/WebView, DRAS, SAR
Mainframe / z/OS	JCL, SDSF, z/OS, JES2/NJE, TSO/ISPF
Platforms / Databases	AIX, RHEL, Windows, Oracle RAC, Azure
Monitoring / ITSM	ServiceNow, MainView, NetView, OMEGAMON, Datadog, Zeke, Zebb, Zena

EDUCATION

MBA (In Progress) — Manipal University Jaipur (Online)

B.Tech, Electrical & Electronics Engineering — Guru Nanak Institutions Technical Campus | CGPA: 7.75

AWARDS

- Best Performance Award, HCLTech (2026) — for contributions supporting Ahold Delhaize USA (ADUSA/RBS) batch operations.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Google Cloud — Certified Partner Specialist, Gemini Enterprise Deployment (expires Apr 14, 2027).

Google Cloud — Certified Partner Specialist, Gemini Enterprise Agent Development (expires Apr 13, 2027).

Google Cloud learning badges: Accelerate Development with Antigravity; Add Agents to Gemini Enterprise; Deploy an Agent with Agent Development Kit (ADK); Deploy Gemini Enterprise with Workspace Data Sources and Model Armor; Evaluate and Improve Agent Development Kit Agents; Govern Agent Access with Gemini Enterprise Agent Platform.

Additional: Introduction to Cybersecurity (Cisco); Cyber Security Fundamentals (Simplilearn); Mainframe Training (Ensono).

Robotics Team Captain — Top 10 finish, RoboCon India.
